**Santiago 7th May, 2007.-** These two most excellent awards obtained add to the 5 gold medals obtained by the cellar during the first four months of this year. In the *Vinalies Internationales* of France, the Ona Sauvignon Blanc 2006 and the Single Vineyard Carmenère 2005 received gold medals. In the *Sélections Mondiales Des Vins in Canada*, the ultra premium Ona Viognier-Riesling-Chardonnay 2006 was the wine which obtained the greatest distinction. Also, in the *Vino & Destiláty* contest in the Czech Republic, the Ona Cabernet-Merlot-Carmenère 2005, as well as the Ona Syrah 2005, were awarded the gold.

*"These seven medals confirm the effort of the enological team in producing wines which widely represent the values of Anakena Wines. Our objective is to offer the greatest diversity of wines as well as high quality and elegant blends to the different markets. Today we are very proud that judges and consumers from different parts of the world are distinguishing us and prizing us for our quality, consistency and innovation"* states Gonzalo Pérez, chief enologist of Anakena Wines.

It is essential to mention that from a total of 8 gold medals awarded to different Chilean cellars in the Challenge du Vin, only Anakena was credited with two of these awards. The **Anakena Ona Syrah 2005** belongs to the ultra premium line of the cellar. This model is characterised by its deep red colour, its raspberry and blackberry aromas and its soft tannins. Meanwhile, the **Anakena Single Vineyard Viognier 2006** is part of a line in which the grapes also come from vineyards that have been cautiously controlled in their performance. A distinguished gold colour and a perfect combination of fruit and oak stand out in this Viognier.

The *Challenge du Vin* contest is the first international competition of France, with more than 30 years existence. In it, around 40 countries participate, and this year 5,000 samples were tasted.
